Interests & Achievements

I am an artist at heart, always questioning what is unique, current and how to attract an audience. I believe I am an important member within a team because I am good at keeping team moral and motivation high.

- After graduating from University, I have begun the venture of beginning my own business. This focuses on creating unique artwork and fashion pieces, using upcycled materials.
- When applying to University, I was overwhelmed to receive an Unconditional offer.
- During my High School and Sixth form studies, I represented England in the Under 16s & 18s teams, playing Handball for the country; as well as being selected to trial for Great Britain.
