

# ASTON FEARON

Sound Engineer  
Location Portfolio

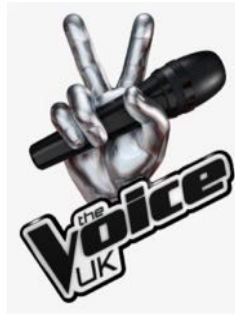

## Bio

I am familiar with location work on set and in the studio.

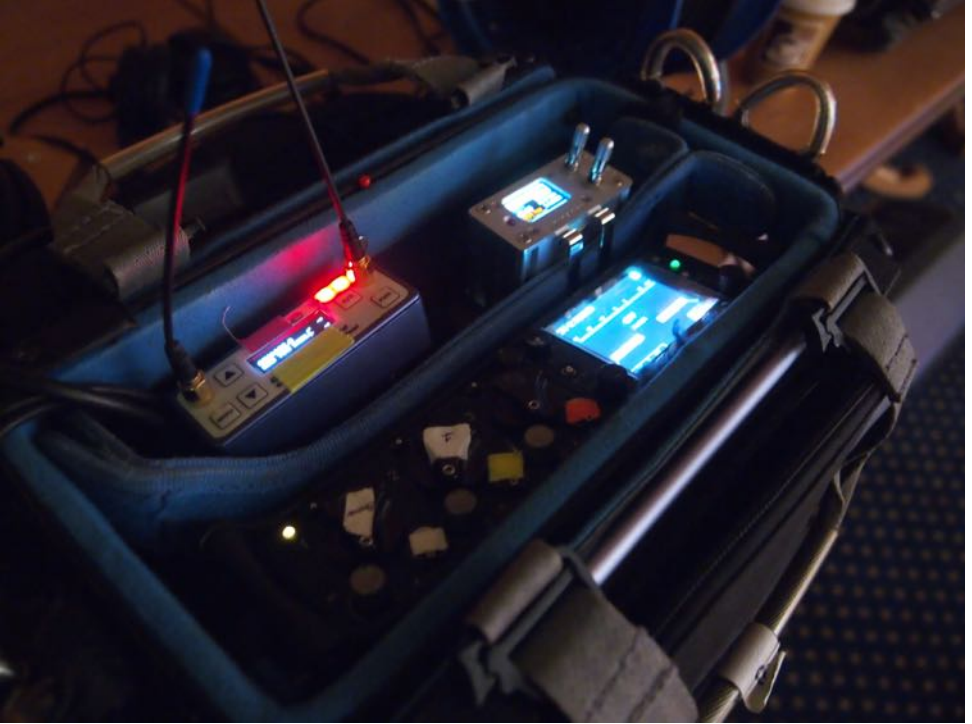

Undertaking work in scripted and non-scripted; I have worked in a variety of genres including documentary, drama, children and, TV commercial. Undertaking work as a Location Sound Recordist, Boom Operator, Sound Assistant; I understand the importance of working professionally and efficiently to a production schedule.

Setting up camera hops and timcode, distributing comtek/listens, micing up on-air talent, optimising room acoustics, providing metadata, writing sound reports and liaising with post production; the work that I have done has been watched nationally and internationally.
