GALLERY PA/PRODUCTION : 2000 - 2004

During my time at the BBC I worked across numerous departments – Children's BBC, Music, Sport and Current Affairs.

Programs I worked on included Glastonbury Festival, The Proms, Panorama, Current Affairs Dept on several projects and The Local Elections.

Working on Glastonbury was easily the biggest event I have ever worked on. An enormous database had to be created for this as there was so much key information to include - setting up filming in various fields, transport through the Festival, crews and kit; arranging access and accreditation, booking travel, catering and accommodation for approximately 300 + people; issuing key information such as call sheets, schedules and production handbooks; taking edit and script notes; setting up systems; ordering and organizing a range of program materials; negotiating and clearing rights as appropriate.
