I pride myself as a hard- working, resilient and outgoing person who enjoys meeting and collaborating with new people and taking on challenges. As I aim to push myself out of my comfort zone as much as possible, I love being able to learn and grow more as a person; taking on new responsibilities is something I find equally thrilling and rewarding. Creativity is an attribute I also highly value in my life and I try to bring innovative ideas to the table wherever possible. Throughout my everyday life, I show support and care towards those around me, as I strive to surround myself with positive and productive environments. Whilst raising others up, I still focus on maintaining my own optimistic but dedicated mindset, using a keen attention to detail in order to achieve my goals and consistently create work that I can take pride in.
